

## **BESCHREIBUNG KURSANGEBOT**:

## ELKI 2-3 JÄHRIGE (ENGLISH)

Kursnummer: 241433

Ort:	AZ Weiherweg , Bahn 1		
	Adresse:		
	Rudolfstr. 43		
	4054 Basel		
Lerninhalt:	In parent-child swimming, the natural urge to move of 1 to 4 year olds		
	is used sensibly and lived out without pressure to perform. The basic		
	movements in the water, such as diving or jumping, are practised and		
	encouraged together. The children participate in the community		
	activities through circle and singing games. In different groups,		
	depending on the age of the children, creativity, play and fun are		
	provided for. The parent-child relationship is intensified through		
	conscious physical contact, eye contact and attention to the child. The		
	child moves itself, but also feels safe and comfortable with the support		
	of the parents.		
	Advantages for you and your child:		
	- The parent-child bond is strengthened.		
	- Blood circulation is stimulated, all parts of the body are supplied with		
	oxygen, which makes the children fit and more receptive.		
	- The respiratory muscles are strengthened and the lung function		
	improved by the water pressure and resistance.		
	- Strengthening of the supporting and postural muscles		
	- Gross and fine motor skills are promoted		

- Contact with other children promotes social competenceals Trockenübungen

If you have any questions, please do not hesitate to <u>contact us.</u>
